This was to support the objective of HDC's Electric Vehicle Charge Point Strategy to ensure that by 2030 there is a comprehensive and cohesive network of electric charge points across the District to serve residents, visitors and businesses. There are Shop Improvement grants of up to £4,000 available from HDC for local retailers to future proof their businesses with key improvements to facilities and in store operations.

Two representatives from all parish councils in the District have been invited to a HDC facilitated workshop on the Local Plan on 6th September 2021 (Cllr Turner and Cllr Wilton will represent North Horsham Parish Council). One of the aims of the workshop is to fast track small areas of land which can be developed and count towards a five year land/ housing supply. ^{*}Total cost centre budget for 2021/22 divided by 4/12ths.

Income

Guidance from the Health and Safety Executive and encouragement for caution from the government to stop the spread of Coronavirus, means that hirers have to provide risk assessments and insurance cover resulting in fewer hires and a reduction of

^{**}Allotment invoices are sent out annually. The full income is expected by the end of April.

^{***}includes insurance estimate of £9,500 paid in one instalment.

around £20,000 in income.

Expenditure

Significant savings have been made in all cost centres, especially personnel resulting in a saving of around £52,000.

Reserves

On 31st July 2021 the General Reserve stood at £291,260 and there were Ear Marked Reserves of £235,449.

Summary

There is approximately £20,000 less income than budgeted for in the first third of 2021/22, but this is offset by £52,000 less expenditure. The overall position is that the Council has spent about £32,000 less than anticipated at this time of the financial year. There is adequate reserves to cover 6 months running costs.

The Council NOTED the Financial Report to 31st July 2021.

The Council AGREED the expenditure list for July 2021 for £28,800.44. (See Appendix 1)

FC/628/21 Community Infrastructure Levy (CiL) allocation on development north of Horsham.

HDC has opted to use Section 106 as a means to secure developer contributions on the development north of Horsham rather than designate it as an area for CiL contributions which would provide 15% of money collected to the local parish council to be spent in the community. However, it would appear that Legal and General intends to reduce the number of large houses on the site in order to provide more 2 and 3 bedroom houses. As a result, the number of houses on the site is likely to increase by 500. 2,750 houses were agreed in the outline planning application. Following debate it was AGREED to raise with HDC the subject of the decision to charge no ClL on the development and check on its validity in present circumstances and to challenge the potential decision by HDC to add a further 500 houses to the 2,750 already approved in the original plan approved by Council.

FC/629/21 Correspondence.

The Council RECEIVED correspondence lists from 30th July 2021 to 26th August 2021. (Appendix 2).

FC/630/21 Exclude press and public

The Council RESOLVED that the Press and Public be excluded from the meeting in accordance with the Public Bodies (Admission to Meetings) Act 1960, s1, for reasons of confidentiality as the following discussion item relates to staff matters.
